

**Daniel C. North – Euler Hermes ACI Chief Economist**

Daniel C. North has been with Euler Hermes ACI (EH ACI) since 1996, using macroeconomic and quantitative analyses to help develop, price, and manage EH ACI's risk portfolio of more than \$150 billion in annual U.S. trade transactions. Prior to joining the company, he worked for Citicorp using similar quantitative techniques to analyze the macroeconomic and financial market environments to create outperforming investment strategies. North has written and presented macroeconomic forecasts on behalf of the Credit Research Foundation and provides regular commentary on the National Association of Credit Management's monthly Credit Manager's Index. His macroeconomic analysis has been featured on CNBC and Bloomberg Television, and he has been quoted by numerous national and regional media entities, including USA Today, Barron's, Forbes, Business Week, and the Chicago Tribune. North holds an MBA from the Wharton School of Business.
